Item 1.5. Earnings Per Share

The Company's earnings per share is presented on the face of the Income Statements on page 5 of this report. Said earnings per share is computed by dividing net income by the number of outstanding common shares.

Item 1.6. Disclosure that the issuer's interim financial report is in compliance with the accordance with generally accepted accounting principles in the Philippines as set forth in PFRSs

The interim financial report of the Company is in compliance with accordance with generally accepted accounting principles in the Philippines as set forth in PFRSs

Item 1.7. Notes to Financial Statements

Item 1.7.a. Accounting Policies and Methods

The same accounting policies and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements. The principal accounting policies adopted in preparing the financial statements of the Company are as follows:

1. The financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board (IASB).

The financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expenses. The measurement bases are more fully described in the accounting policies that follow:

NEW INTERPRETATIONS, REVISIONS AND AMENDMENTS TO PFRS

(a) *New Interpretations, Revisions and Amendments adopted in 2015*

The Company adopted for the first time the following amendments and interpretation to PFRS that are relevant to the Company and effective for financial statements for the annual period beginning on or after January 1, 2015:

PAS 19 (Amendment) : Employee Benefits – Defined Benefit Plans – Employee Contributions
Annual Improvements : Annual Improvements to PFRS (2010-2012 Cycle) and PFRS (2011-2013 Cycle)

Discussed below and in the succeeding page are the relevant information about these amendment and annual improvements.

(i) PAS 19 (Amendment), *Employee Benefits – Defined Benefit Plans – Employee Contributions*. The amendment clarifies that if the amount of the contributions to defined benefit plans from employees or third parties is dependent on the number of years of service, an entity shall attribute the contributions to periods of service using the same attribution method (i.e., either using the plan's contribution formula or on a straight-line basis) for the gross benefit. The amendment did not have a significant impact on the Company's financial statements since the Company's defined benefit plan does not require employees or third parties to contribute to the benefit plan.

(ii) Annual Improvements to PFRS. Annual improvements to PFRS (2010-2012 Cycle) and PFRS (2011-2013 Cycle) made minor amendments to a number of PFRS. Among those improvements, the amendments discussed in the succeeding page are relevant to the Company but had no material impact on the Company's financial statements.

Annual Improvements to PFRS (2010-2012 Cycle)

□ PFRS 8 (Amendment), *Operating Segments – Aggregation of Operating Segments, and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets*. This amendment requires disclosure of the judgments made by management in applying the aggregation criteria to operating segments. This includes a description of the segments which have been aggregated and the economic indicators which have been assessed in determining that the aggregated segments share similar economic characteristics. It further clarifies the requirement to disclose for the reconciliations of segment assets to the entity's assets if that amount is regularly provided to the chief operating decision maker.

□ PAS 16 (Amendment), *Property, Plant and Equipment – Revaluation Method – Proportionate Restatement of Accumulated Depreciation and Amortization*. The amendment clarifies that when an item of property, plant and equipment is revalued, the gross carrying amount is adjusted in a manner that is consistent with a revaluation of the carrying amount of the asset.

□ PAS 24 (Amendment), *Related Party Disclosures – Disclosure of Key Management Personnel*. The amendment clarifies that an entity providing key management services to a reporting entity is deemed to be a related party of the latter. It also clarifies that the information required to be disclosed in the financial statements are the amounts incurred by the reporting entity for key management personnel services that are provided by a separate management entity and not the amounts of compensation paid or payable by the management entity to its employees or directors.

Annual Improvement to PFRS (2011-2013 Cycle)

PFRS 13 (Amendment), *Fair Value Measurement – Scope of Portfolio Exception*. The amendment clarifies that the scope of the exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis (the portfolio exception) applies to all contracts within the scope of and accounted for in accordance with PAS 39, *Financial Instruments: Recognition and Measurement*, or PFRS 9, *Financial Instruments*, regardless of whether they meet the definition of financial assets or financial liabilities as defined in PAS 32, *Financial Instruments: Presentation*.

(b) New Interpretations, Revisions and Amendments that are not Relevant to the Company

The following annual improvements to PFRS are mandatory for accounting periods beginning on or after January 1, 2015 but are not relevant to the Company's financial statements:

PFRS (2010-2012 Cycle)

PFRS 2 (Amendment) : Share-based Payment – Definition of Vesting Condition

PFRS 3 (Amendment) : Business Combinations – Accounting for Contingent Consideration in a Business Combination

PAS 38 (Amendment) : Intangible Assets – Revaluation Method –Proportionate Restatement of Accumulated Amortization
PFRS (2011-2013 Cycle)

PFRS 3 (Amendment) : Business Combinations – Scope Exceptions for Joint Ventures
PAS 40 (Amendment) : Investment Property – Clarifying the Interrelationship between PFRS 3 and PAS 40

(c) *Effective Subsequent to 2015 but not Adopted Early*

There are new PFRS, amendments and annual improvements to existing standards effective for annual periods subsequent to 2015 which are issued by the FRSC, subject to the approval of the BOA. Management will adopt the following relevant pronouncements in accordance with their transitional provisions, and, unless otherwise stated, none of these are expected to have significant impact on the Company's financial statements:

(i) PAS 1 (Amendment), Presentation of Financial Statements – Disclosure Initiative (effective from January 1, 2016). The amendment encourages entities to apply professional judgment in presenting and disclosing information in the financial statements. Accordingly, it clarifies that materiality applies to the whole financial statements and an entity shall not reduce the understandability of the financial statements by obscuring material information with immaterial information or by aggregating material items that have different natures or functions. It further clarifies that in determining the order of presenting the notes and disclosures, an entity shall consider the understandability and comparability of the financial statements.

(ii) PAS 16 (Amendment), Property, Plant and Equipment – Clarification of Acceptable Methods of Depreciation and Amortization (effective from January 1, 2016). The amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment. The amendment also provides guidance that the expected future reductions in the selling price of an item that was produced using the asset could indicate an expectation of technological or commercial obsolescence of an asset, which may reflect a reduction of the future economic benefits embodied in the asset.

(iii) PAS 16 (Amendment), Property, Plant and Equipment, and PAS 41 (Amendment), Agriculture – Bearer Plants (effective from January 1, 2016). The amendment defines a bearer plant as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales. On this basis, bearer plant is now included within the scope of PAS 16 rather than PAS 41, allowing such assets to be accounted for as property, plant and equipment and to be measured after initial recognition at cost or revaluation basis in accordance with PAS 16. The amendment further clarifies that produce growing on bearer plants remains within the scope of PAS 41.

(iv) PFRS 9 (2014), Financial Instruments (effective from January 1, 2018). This new standard on financial instruments will eventually replace PAS 39 and PFRS 9 (2009, 2010 and 2013 versions). This standard contains, among others, the following:

- three principal classification categories for financial assets based on the business model on how an entity is managing its financial instruments;
- an expected loss model in determining impairment of all financial assets that are not measured at fair value through profit or loss (FVTPL), which generally depends on whether there has been a significant increase in credit risk since initial recognition of a financial asset; and,
- a new model on hedge accounting that provides significant improvements principally by aligning hedge accounting more closely with the risk management activities undertaken by entities when hedging their financial and non-financial risk exposures.

In accordance with the financial asset classification principle of PFRS 9 (2014), a financial asset is classified and measured at amortized cost if the asset is held within a business model whose objective is to hold financial assets in order to collect the contractual cash flows that represent solely payments of principal and interest (SPPI) on the principal outstanding. Moreover, a financial asset is classified and subsequently measured at fair value through other comprehensive income if it meets the SPPI criterion and is held in a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets. All other financial assets are measured at FVTPL.

In addition, PFRS 9 (2014) allows entities to make an irrevocable election to present subsequent changes in the fair value of an equity instrument that is not held for trading in other comprehensive income.

The accounting for embedded derivatives in host contracts that are financial assets is simplified by removing the requirement to consider whether or not they are closely related, and, in most arrangements, does not require separation from the host contract.

For liabilities, the standard retains most of the PAS 39 requirements which include amortized cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The amendment also requires changes in the fair value of an entity's own debt instruments caused by changes in its own credit quality to be recognized in other comprehensive income rather than in profit or loss.

Management is currently assessing the impact of PFRS 9 (2014) on the financial statements of the Company and it will conduct a comprehensive study of the potential impact of this standard prior to its mandatory adoption date to assess the impact of all changes.

(v) *Annual Improvements to PFRS (2012-2014 Cycle) (effective from January 1, 2016)*. Among the improvements, the following amendments are relevant to the Company but management does not expect these to have material impact on the Company's financial statements:

- PFRS 7 (Amendment), Financial Instruments– Disclosures. The amendment provides additional guidance to help entities identify the circumstances under which a contract to “service” financial assets is considered to be a continuing involvement in those assets for the purposes of applying the disclosure requirements of PFRS 7. Such circumstances commonly arise when, for example, the servicing is dependent on the amount or timing of cash flows collected from the transferred asset or when a fixed fee is not paid in full due to non-performance of that asset.
 - PAS 19 (Amendment), Employee Benefits– Discount Rate. The amendment clarifies that the currency and term of the high quality corporate bonds which were used to determine the discount rate for post-employment benefit obligations shall be made consistent with the currency
2. The financial statements are presented in accordance with Philippine Accounting Standard(PAS) 1, *Presentation of Financial Statement*. The Company presents all items of income and expenses in a single statement of comprehensive income.
 3. The financial statements are presented in Philippine pesos, the Company's functional currency, and all values represent absolute amounts except when otherwise indicated.
 4. Financial assets are classified into financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The Company's financial assets, which consist mainly of cash and trade receivables, are recognized on their trade date and are initially recognized at fair value, plus transaction costs.
 5. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Company provides money, goods or services directly to a debtor with no intention of trading the receivables. They are included in current assets, except for maturities greater than 12 months after the balance sheet date which are classified as non-current assets.

Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment losses. Any change in their value is recognized in profit or loss. Loans and receivables are presented as Trade and Other Receivables in the balance sheets.

Impairment loss is provided when there is objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the asset's carrying amount and the present value of estimated cash flows.

6. Derecognition of financial assets occurs when the rights to receive cash flows from the financial instruments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.
7. Construction materials are valued at the lower of cost and net realizable value. Cost of construction materials is based on purchase cost on a moving average basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
8. Property and equipment are stated at cost less accumulated depreciation, amortization and impairment in value, if any. The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred. When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and impairment losses are removed from the accounts and any resulting gain or loss is reflected in income for the period.

9. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Construction equipment	5-10 years
Transportation equipment	5 years
Furniture and fixtures	3 years

Leasehold improvements are amortized over 3 years or the term of the lease, whichever is shorter.

The residual values and estimated useful lives of property and equipment are reviewed, and adjusted if appropriate, at each balance sheet date.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the statement of income in the year the item is derecognized.

The Company's property and equipment are subject to impairment testing whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognized for the amount by which the asset or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value in use, based on an internal discounted cash flow evaluation. Impairment loss is charged pro rata to the other assets in the cash generating unit.

All assets are subsequently reassessed for indications that an impairment loss previously recognized may no longer exist and the carrying amount of the asset is adjusted to the recoverable amount resulting in the reversal of the impairment loss.

10. Investment property is stated at cost less any impairment in value. The cost of investment property comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized; expenditures for maintenance are charged to expense as incurred. When investment property are sold, retired or otherwise disposed of, their cost and impairment losses, if any, are removed from the accounts and any resulting gain or loss is reflected in income for the period.

The carrying amount of investment property is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The Company determined whether a property qualifies as investment property. In making its judgment, the Company considers whether the property generated cash flows largely independently of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to property but also to other assets used in the production or supply process.

11. Non-Current Asset Classified as Held-for-sale include investment property that the Company intends to sell within one year from the date of classification as held-for-sale.

Non-current asset classified as held-for-sale is measured at the lower of its carrying amount, immediately prior to the classification as held-for-sale, and its fair value less costs to sell. The profit or loss arising from the sale or revaluation of held-for-sale assets is recognized in the income statement.

12. Financial liabilities include bank loans and trade and other payables. Financial liabilities are recognized when the Company becomes a party to the contractual agreements of the instrument. All interest related charges are recognized as an expense in the statement of income under the caption Finance Costs.

Trade payables are recognized initially at their nominal value and subsequently measured at amortized cost less settlement payments.

Financial liabilities are derecognized from the balance sheet only when the obligations are extinguished either through discharge, cancellation or expiration.

13. Revenue and Cost Recognition. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific revenue recognition criteria must also be met before revenue is recognized:

- Revenues and costs from contracts – Revenue is recognized based on actual work done which is consistent with the percentage-of-completion method. Under this method, revenues are recognized in proportion to the actual stage of completion of the project as a percentage of total estimated costs for each contract as determined and certified by project engineers. Costs are recognized based on actual costs incurred. Adjustments in the contract price or the estimated costs are recorded prospectively when they become known while anticipated losses on the contracts are recorded in full when determined.

- Rental income – Revenue is recognized when the amount of the agreed rent is billed and earned.

- Scrap sales – Revenue is recognized when the title of the scrap construction materials passes to the buyer.

- Forfeiture income – When the performance of contractually agreed tasks is not completed by the subcontractors at the specified time in the contract, a portion of the retention fees payable is forfeited and recognized as income.

Cost and expenses are recognized in the statement of income upon utilization of the service or at the date they are incurred. Finance costs are reported on an accrual basis.

14. Leases. Company as lessee – Leases which do not transfer to the Company substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as expense in the statement of income on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

Company as lessor – Leases which do not transfer to the Company substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases is recognized as income in the statement of income on a straight-line basis over the lease term. Indirect costs incurred by the lessor in negotiating and arranging for an operating lease is added to the carrying amount of the leased asset and recognized as expense over the lease term.

15. *Retirement Benefit Obligations*

The Company has not established a formal retirement plan. However, it recognizes the estimated defined benefit obligations (under Republic Act No. 7641, the “Retirement Act”) using the Projected Unit Credit Method as computed by an actuary.

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of pension plan remains with the Company, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Company’s defined benefit pension plan covers all regular full-time employees.

The liability recognized in the balance sheet for defined benefit pension plans is the present value of the defined benefit obligation (DBO) at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The DBO is calculated annually by independent actuaries using the projected unit credit method. The present value of the DBO is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains and losses are not recognized as an expense unless the total unrecognized gain or loss exceeds 10% of the greater of the obligation and related plan assets. The amount exceeding this 10% corridor is charged or credited to profit or loss over the employees’ expected average remaining working lives. Actuarial gains and losses within the 10% corridor are disclosed separately. Past-service costs are recognized immediately in the statement of income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortized on a straight-line basis over the vesting period.

16. *Income Taxes* .Current income tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statement of income.

Deferred tax is provided, using the balance sheet liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in the statement of income. Only changes in deferred tax assets or liabilities that relate to a change in value of assets or liabilities that is charged directly to equity are charged or credited directly to equity

17. *Equity*. Capital stock is determined using the nominal value of shares that have been issued.

Additional paid-in capital includes any premiums received on the initial issuing of capital stock.

Any transaction costs associated with the issuing of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Retained earnings include all current and prior period results as disclosed in the statements of income

Item 1.7.b. Comments about the seasonality or cyclical of interim operations

For the past few years, the Company's construction activities are sluggish during the first (1st) quarter. It peaks starting on the summer months, that is, during the second (2nd) to the third (3rd) quarter of the year. There are instances, however, when the Company is still active in its construction projects during the last quarter of the year especially when the Developers accumulate their inventory in time for the influx of buyers in December. However, for the first quarter of the current year, the Company generated lower revenue since there are few subsisting contracts for the year 2016.

Item 1.7.c. Nature and amount of items affecting assets, liabilities, equity, net income or cash flows that are unusual because of their nature, size or incidents

See Item 2.2.e

Item 1.7.d. Nature and amount of changes in estimates of amounts reported in prior interim periods of the current financial year or changes in estimates of amounts reported in prior financial years, if those changes have material effects in the current interim period

There were no changes in estimates reported in prior periods which could materially affect the current interim period.

Item 1.7.e. Issuances, repurchases and repayments of debt and equity securities

For the 2nd quarter of this year, there were neither payments nor availments of interest-bearing loans. Likewise, there were no issuances, repurchases or repayments of equity securities.

Item 1.7.f. Payment of dividend

There were no dividends paid during the 2nd quarter of the year.

Item 1.7.g. Segment revenue and segment result for business segments or geographical segments, whichever is the issuer's primary basis of segment reporting

As of June 30, 2016, the Company has not yet started any real estate development projects. Currently, the Company is continuously engaged in the business of construction, its sole business activity where it utilizes the services of subcontractors. Hence, no segment information and disclosures are presented in the Company's financial statements.

Item 1.7.h. Material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period

There are no material events subsequent to June 30, 2016 that have not been reflected in the financial statements for the six(6)-month period covered January to June 30, 2016.

Item 1.7.i. Effect of changes in the composition of the issuer during the interim period, including business combinations, acquisition, or disposal of subsidiaries and long-term investments, restructurings, and discontinuing operations

There were no changes in the composition of the Company during the interim period.

Item 1.7.j. Changes in contingent liabilities or contingent assets since the last annual balance sheet date

There were no changes in contingent liabilities or contingent assets since December 31, 2015.

Item 1.7.k. Existence of material contingencies and any other events or transactions that are material to an understanding of the current interim period

There are commitments, guarantees and contingent liabilities relating to construction projects entered into by the Company that arise in the normal course of business which are not reflected in the interim financial statements. Management believes, however, that any loss that could arise from these commitments and contingencies will not have a material effect on the Company's financial statements as of and for the six-month period ending June 30, 2016.

Following are the Schedules required under SRC Rule 68.1-M:

Schedule A – Marketable Securities

The Company has no marketable securities. Thus, the schedule is omitted.

Schedule B – Amounts Receivable from Directors, Officers, Employees, Related Parties, and Principal Stockholders (Other than Related Parties)

As of June 30, 2016

Name and Designation of Debtor	Balance at Beginning of Period	Additions	Amounts Collected (2)	Current	Not Current	Balance at End Of Period
Related Parties:						
City and Life Property, Inc.	3,891,913	12,539	-	3,904,452	-	3,904,452
Prosperity Builders Resources	3,426,193	-	-	3,426,193	-	3,426,193
Supreme Housing Builders	1,417,505	-	-	1,417,505	-	1,417,505
Total	8,735,611	12,539	-	8,748,150	-	8,748,150

Schedule C – Non-Current Marketable Equity Securities, Other Long-Term Investments in Stocks, and Other Investments

The Company has no Non-Current Marketable Equity Securities, Other Long-Term Investments in Stocks, and Other Investments. Thus, the schedule is omitted.

Schedule D – Indebtedness to Unconsolidated Subsidiaries and Related Parties

As of June 30, 2016

Name of Designation of Debtor	Balance Beginning of Period	Additions	Amounts Collected (2)	Amounts Written off (3)	Current	Not Current	Balance at End Of Period
Extraordinary Dev. Corp.	8,929,400	-	-	-	8,929,400	-	8,929,400
Total	8,929,400	-	-	-	8,929,400	-	8,929,400

Schedule E – Intangible Assets – Other Assets

The Company has no intangible assets. Thus, the schedule is omitted.

Schedule F – Long-Term Debt

The Company has no long-term debt. Thus, the schedule is omitted.

Schedule G – Indebtedness to Related Parties

The Company has no indebtedness to related parties. Thus, the schedule is omitted.

Schedule H – Guarantees of Securities of Other Issuers

The Company has no guarantees of securities of other issuers. Thus, the schedule is omitted.

Schedule I – Capital Stock

As of June 30, 2016

Title of Issue	No. of shares authorized	No. of shares issued and outstanding	No. of shares reserved for options, warrants, conversion and other rights	No. of shares held by		
				Related parties	Directors, officers and employees	Others
Common	155,000,000	110,000,000	-	-	56,220,000	53,780,000

Note: Certain officers, directors and stockholders of these related parties purchased shares of stock in the Company's initial public offering.

Schedule of Financial Soundness Indicators

Financial Soundness Indicators	Formula	06/30/2016	12/31/2015
Liquidity:			
Current Ratio	Current Assets/Current Liability	1.14 : 1	1.16 : 1
Solvency:			
Debt-to-Equity Ratio	Total Liabilities/Total Equity	9.02 : 1	7.45 : 1
Asset-to-equity:			
Asset-to-Equity ratio	Total Assets/Total Equity	10:01 : 1	8.45 : 1
Interest-rate-coverage:			
*Interest-rate-coverage ratio	Profit Before Tax/Finance Costs	n/a	n/a
Profitability:			
Return-on-investment	Net Income/Average Capital Stock	-0.62%	-0.45%

*The Company has no existing interest-bearing loans as of the given period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 2.1. Comparable discussion that will enable the reader to assess material changes in financial condition and results of operation since the end of the last fiscal year and for the comparable interim period in the preceding financial year

Financial Condition

Total Assets

The Company's total assets amounted P 41.30M as of June 30, 2016, 1.71% higher than the December 31, 2015 figure of P 40.61M. The total assets of the company increased because of the increase under trade receivables in prepayments and other current assets .

Property and Equipment

Property and equipment as of December 31, 2015 were fully depreciated. The Company employs subcontractors that can provide the necessary equipment.

Total Liabilities

The Company's total liabilities as of June 30, 2016, amounted to P 37.18M, a 3.85% increase as compared to the December 31, 2015 balance of P 35.80M. The increase was primarily brought by the increase in trade and other payable accounts.

Liquidity

The Company posted a current ratio of 1.14:1 as of June 30, 2016, lower than the 1.16:1 current ratio as of December 31, 2015. The decrease can be attributed to both increase in current assets particularly the trade and other receivables and prepayments and current liabilities particularly the trade and other payables.

Leverage

Debt-to-equity ratio as of June 30, 2016, was determined to be 9.02:1 higher than the 7.45:1 ratio as of December 31, 2015. The increase was brought about by the net loss incurred during the given quarter .

Results of Operation

Revenues

Revenues from contracts for 2016Q2 amounted to P7.66M, 279% higher than the P 2.02M in 2015Q2. The increase can be attributed to new awarded contract in 2016 for East Bellevue Residences. Moreover, contract revenues for the 2016Q2 were generated from the Housing project in Rodriguez, Rizal which were awarded in 2015 .

Gross Profit

Gross profit from construction contracts increased by 140% from P 336K in 2015Q2 to P 805K in 2016Q2. On the other hand, gross profit ratio decreased from 16.67% to 10.52% because the 2016Q2 contract cost is 307% higher than the 2015Q2 , thus resulted to decreased in gross profit ratio in 2016Q2.

Cost and Expenses

Costs and expenses for 2016Q2 amounted to P 7.70M, 202% higher than the P 2.55M in 2015Q2. Cost of services for 2016Q2 comprised 89% of the total costs and expenses. Cost of services increased by 307% from P 1.68M in 2015Q2 to P 6.85M in 2016Q2. The increased was primarily brought about by the construction activities pertains to awarded contracts in 2016Q2 plus the remaining accomplishment in 2015.

For the total operating expenses, 2016Q2 amounted to 0.85M, 2.30% lower than the 2015Q2 of 0.87M. The minimal decrease was primarily brought about by the decrease in salaries and employee benefits and taxes and licenses incurred for the given quarter in 2016.

Operating Profit (Loss)

As a result of the foregoing, operating profit (loss) in 2016Q2 amounted to (P 0.04M) from(P 0.54M) in 2015Q2. Correspondingly, operating margin (loss)ratio decreased from (26.57%) in 2015Q2 to (0.57%) in 2016Q2. The decreased can be attributed to the remaining completion of 2015 contracts.

Other Income / Charges

No financing costs incurred in 2015Q2 and in 2016Q2 since there was no interest-bearing loans for the given quarter. Other income pertains only to interest earned by the Company for its bank deposits.

Net Income (Loss)

As a result of the higher revenue this 2016Q2, net loss loss ratio decreased from (26.57%) in 2015Q1 to (.57%) in 2016Q2. Finally, this translated into earnings (loss) per share of(P0.0004) in 2016Q2 from (P0.0049) in 2015Q2.

Key Performance Indicators

Return on Investment (ROI)

The Company computes return on investment (ROI) by dividing net income for the period by the weighted average capital stock, wherein capital stock equals capital stock subscribed plus net additional paid-in capital. This is to determine how much stockholders have earned on their investment in the Company.

For 2016Q2, the Company posted an ROI of (0.62%) compared to the 2015Q2 ROI of (0.45%). The decrease in ROI can be attributed to the net loss for the given period.

Fixed Assets Turnover

Fixed assets turnover is computed as sales for the period divided by the average fixed assets. A significant portion of the fixed assets (property and equipment, net of accumulated depreciation) is composed of construction and other site-based equipments. Since these equipments are major components in generating revenues, the fixed assets turnover is therefore deemed important. The higher the fixed assets turnover, the better it is for the Company. A high fixed assets turnover ratio would mean that the Company was able to make full use of its assets in generating revenues.

The Company posted a fixed assets turnover rate of 274 times in 2015Q1. However, in 2016, the fixed assets were fully depreciated.

Current Ratio

Current ratio is computed as current assets divided by current liabilities. The Board of Directors and the Management believe that this is an important measure of the liquidity of the Company as it reflects the capacity of the Company to pay for its short-term maturing obligations particularly trade payables, bank loan and advances from customers. The higher the current ratio, the better it is for the Company.

Current ratio as of June 30, 2016 was computed at 1.14:1 lower than the 1.16:1 ratio at the beginning of the year. The decrease can be attributed to both increase in current liability particularly the trade and other payables.

Debt to Equity Ratio

Debt-to-equity ratio is computed by dividing the Company's liabilities by the total stockholders' equity as of the end of the year. The leverage ratio indicates how the Company's operations are financed, that is, either by debt or equity. A 1:1 debt equity ratio is the preferred ratio as it favors both the creditors and the stockholders.

Debt-to-equity ratio as of June 30, 2016, was determined to be 9.02:1 higher than the 7.45:1 ratio as of December 31, 2015. The increase was brought about by the net loss incurred during the given quarter .

Item 2.2. Discussion and analysis of material event/s and uncertainties known to Management that would address the past and would have an impact on future operations of the following:

2.2.a. Any known trends, demands, commitments, events, uncertainties that will have a material impact on the issuer's liquidity

There are no material commitments that may affect the company's liquidity.

2.2.b. Any material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures

There are no material commitments for capital expenditures.

2.2.c. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations

The 2nd quarter of the year 2016, the Company generated its revenue from construction activities. The Management expects that Company will still continue to engage in construction until such time that its plan to engage into real estate business is pursued.

2.2.d. Any significant elements of income or loss that did not arise from the issuer's continuing operations

There are no significant elements of income or loss that did not arise from the Company's continuing operations.

2.2.e. The causes of any material change/s (5% or more) from period to period in one or more line items of the issuer's financial statements (present in tabular form)

Balance Sheets Items:

Account Title	As Of		Inc/(Dec)		Remarks
	30-Jun-16	31-Dec-15	Amount	%	
Cash & cash equivalents	2,813,648	2,971,298	(157,650)	-5%	Decrease due to payment for administrative and other operating expenses for the current year
Trade and other payables	27,211,077	25,832,411	1,378,666	5%	Increase due to increase in output vat accounts
Total Equity	4,121,880	4,807,122	(685,242)	-14%	The decrease pertains to net loss incurred by the company for 2016

Income Statement Items:

Account Title	For the Quarter Ending		Inc/(Dec)		Remarks
	06/30/2016	06/30/2015	Amount	%	
Revenues	7,656,271	2,018,562	5,637,709	279%	Increase was due to newly awarded contracts in 2016
Contract Cost	6,850,827	1,682,135	5,168,692	307%	Increase was due to construction activities pertains to newly awarded contracts in 2016 plus the remaining accomplishment in 2015
Gross Profit	805,444	336,427	469,017	139%	Increase was due to increase revenue generated as described above
Operating Profit (Loss)	(43,934)	(536,342)	(492,408)	-92%	Decrease was due to completion of remaining 2015 contracts and increase in revenue as described above.
Other gains - net	189	245	(56)	-23%	This pertains to interest earned for the given quarters
Income(Loss) Before Tax	(43,745)	(536,097)	(492,352)	-92%	Decrease was due to completion of remaining 2015 contracts and increase in revenue as described above.
Net Income(Loss)	(43,745)	(536,097)	(492,352)	-92%	Decrease was due to completion of remaining 2015 contracts and increase in revenue as described above.

2.2.f. Any seasonal aspects that had a material effect on the financial condition or results of operations.

There are no seasonal aspects that had a material effect on the financial condition or results of operations.
